## We are Proud of Our School!

We strive to offer our students the latest in technology: MacBooks, iPads, PC computer lab, and interactive white boards.

We are one of only a handful of schools in the state where our fifth through eighth grade students carry their own laptops throughout the day and take them home as well.

We have plenty of space to play outside and great playground equipment to use.

**We strive to offer the same-or better- opportunities that larger schools provide.**
